

BCP Charges

2024

PLEASE NOTE

The BCP Related Charges listed below are administered and invoiced by MCP plc on behalf of the BCP Operator. While they are presented as advisory information by MCP plc, these charges do not represent fees imposed by MCP plc for providing or using Destin8 functionality.

All invoicing and collection of Border Control Point (BCP) related charges is a supplementary bespoke service provided to BCP Operators and is outside of the Destin8 core functionality. This service is not covered by our standard terms and conditions. Fees are subject to change by the individual BCP Operators, fees included in this schedule are correct at the time of publication.

Any queries or disputes on rates, charge party and/or failure to settle import or export port charges raised on behalf of BCP Operators are for the BCP Operator to resolve directly with their customers.

Please note that this schedule of port-related charges is not exhaustive. It only outlines charges where MCP plc serves as a collecting agent on behalf of the specific BCP Operator. Operations or examination of your goods in any BCP may still attract BCP related charges which will be invoiced directly by the BCP Operator.

If you have any inquiries about the potential charges applicable to your operations, please communicate directly with the BCP Operator at the location where your goods are to be examined.
