

Port Charges

2024

PLEASE NOTE

The Import and Export Port Related Charges listed below are administered and invoiced by MCP plc on behalf of the Terminal Operator. While they are presented as advisory information by MCP plc, these charges do not represent fees imposed by MCP plc for providing or using Destin8 functionality.

All invoicing and collection of security, examination and SOLAS VGM related charges is a supplementary bespoke service provided to Terminal Operators and is outside of the Destin8 core functionality. This service is not covered by our standard terms and conditions. Fees are subject to change by the individual Terminal Operators, fees included in this schedule are correct at the time of publication.

Any queries or disputes on rates, charge party and/or failure to settle import or export port charges raised on behalf of Terminal Operators are for the Terminal Operator to resolve directly with their customers.

Please note that this schedule of port-related charges is not exhaustive. It only outlines charges where MCP plc serves as a collecting agent on behalf of the specific Terminal Operator. Operations in any Port may still attract Port related charges which will be invoiced directly by the Terminal Operator.

If you have any inquiries about the potential charges applicable to your operations, please communicate directly with the Terminal Operator at the location where you are conducting business.
